DETAILED ACTION

1. This communication is in response to amendment filed 10/23/07.

Response to Amendment

2. Claims 1-69 have been canceled. New claims 70-84 have been added.
3. Newly added claims 70-84 have been allowed.

Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance:

The invention of claims 70-84 pertain to online auction of goods and services.

The following prior art references have been deemed most relevant to the allowed claim(s):

5. WO 03/027806 to Johnson teaches a system in which an initial asking price for an item at auction is incrementally lowered at intervals until a first bid is finally received. Then, the auction proceeds based on that first bid. Therefore, Johnson teaches nothing more than the traditional practice of auction to lower the initial bid or asking price until a first bid is received and then commence the auction from that point.

6. Claims 70-84 have been allowed because Johnson does not teach, suggest or otherwise render obvious the process step of offering each of the items for sale over a computer network, wherein **starting bid for each item is determined by a highest bid received for that item during a preliminary bidding** which is conducted over the computer network (See claim 70). At least for this reason claims 70-84 are allowable over the closest prior art.
